Why use Cyclone Dunnage Air Bags?

- Satisfy requirements by over-the-road, ocean container and railroad regulatory bodies (AAR, PPPPD (Product Performance Profile for Pneumatic Dunnage), M.O.T., D.O.T.)
- Reduce or eliminate damage to cargo
- Lightweight, flexible and fill variable voids
- More bags per box, taking up less space on your floor

Other Features & Benefits

- Can be used in all modes of transportation - truck, ocean container, railcar
- Perform in both wet and dry conditions
- Quick inflation and deflation
- 100% recyclable
- Cost effective and proven load securement option

Sizes

Dunnage bags come in a wide variety of sizes in widths of 30", 36", 48" & 60". Lengths range from 30" to 132". Visit our website for more details.
