## SYNTHETIC CORD STRAPPING/LASHING

A high-strength, safe and cost-effective alternative to steel strapping  
that unitizes and secures your cargo

# YOUR CARGO SECUREMENT SPECIALISTS!!

Technical Sales Support and  
Regional Warehousing  
throughout North America

## ▶ Why use Synthetic Cord Strapping?

- Safe for operators to use, eliminating lost time accidents and injuries related to steel strapping
- Ergonomically friendly as coil weights are lighter and easier to handle than steel strapping
- Fully recyclable and easy to dispose of at destination

## ▶ Other Features & Benefits

- Can be used in all modes of transportation - truck, ocean container, railcar
- Lighter and more flexible than steel
- Easy to use and install - just one tool for all applications
- Can be re-tensioned if necessary

## Sizes

Cord Strapping comes in a wide variety of sizes in widths of 5/8" to 1 5/8". Lengths range from 670 FT to 2250 FT. Visit our website for more details.
