HONEYCOMB DUNNAGE

Superior cushioning to protect product during transit

Used in a wide variety of both packaging and cargo securement applications

YOUR CARGO SECUREMENT SPECIALISTS!!

Technical Sales Support and
Regional Warehousing
throughout North America

Why use honeycomb dunnage?

- Eliminate product damage during transit
- Replace traditional wood blocking and bracing with lighter, easy-to-use material
- Easily customized or converted to meet specific package designs

Other Features & Benefits

- Exceeds all AAR regulatory standards for blocking and bracing
- Strong, yet lightweight
- Get paid for your waste! Honeycomb is 100% recyclable - like corrugate, just compact and bale at destination!
