LOADSECURE™

## LOADSECURE™ FRICTION MATS

Proven and effective for the securement of cargo in any transit method application  
A safer and more cost effective alternative than traditional wood blocking and bracing

# YOUR CARGO SECUREMENT SPECIALISTS!!

Technical Sales Support and  
Regional Warehousing  
throughout North America

## ► Why use LoadSecure™ Friction Mats?

- Minimize movement of cargo which could result in load shifting
- Reduce transit damage
- Safe to install and remove
- AAR Intermodal TOFC/COFC (trailer on a flat car/container on a flat car) approved
- NACCS compliant per Canada NCS 10 and U.S. FMCSA 49 federal code regulations

## ► Other Features & Benefits

- Product density and thickness to ensure effective securement of any type of cargo
- Available in a wide range of sheet and roll sizes
- Time Saving
- Effective in wet and dry conditions
- Fully recyclable

## Sizes

LoadSecure™ friction mats are available in a wide range of custom and standard sizes, in both sheet and roll formats. Standard widths range from 20" to 42". Standard sheet lengths range from 30" to 66" and standard roll lengths are 1800'. Visit our website for more details.
